

MID-SUMMER BARGAINS.

This is the season of the year when the old foggy merchant procures a palm-leaf fan and hies him to a shady place and waxeth hot in a vain endeavor to keep the flies off. Not so with the live merchant—he assort the remnants, the short lengths and the broken lots and places them on the bargain counter to tempt the customer that wants a 150 cents worth of goods for a \$1.00.

This is the season when the live merchant converts his stock into hard money, even silver and gold, and gets ready for the busy Fall Season, when his customers will expect a large fresh stock of the choicest goods in the land.

We prefer to be classed among the live merchants and our counters are now teeming with bargains. Read all of this advertisement for particulars and when you call to purchase any of the items mentioned in these columns say that you saw the advertisement in the PEOPLE'S VOICE, as we propose to list the value of the various advertising mediums in the county the next few weeks.

LOCAL PICK-UPS.

Between the baseball and bicycle craze, the people have very little time to spend with political matters.

The Voice office had a great many visitors last Saturday. Our circulation increases every week.

A great many train loads of cattle are being sent from Caldwell to Chicago and other points, so says the News.

A. G. Haltiwanger, the druggist, is putting in a complete stock of paints, oils, glass, etc.

H. Q. Hood, a patient sent to the state insane asylum in 1889 from Sumner county, has been discharged incurable.

An Uncle Tom's Cabin company raided the county last week giving their performance in the smaller towns under a tent.

Mr. James Darby, foreman of the Standard office, will move his family here from Chicago next week and occupy a residence in the 4th ward.

Mocking Bird: Isaac Wood was in Wednesday and reports a phenomenal yield of tame hay. Yet there are people who claim that tame grasses cannot be grown in Kansas.

The heavy rains last Saturday and Sunday practically insured an immense crop of corn in this county this season. We have never seen cornfields look more promising.

The farmers are now running plows in every direction, getting ready for early fall seeding, which always pays. The ground, since the recent heavy rains, is in excellent condition.

Campan's Military band gave a street concert Monday evening. With much practice the band is rapidly improving and Wellington will soon have a band that is simply "out of sight."

A. G. Haltiwanger keeps the kind of drugs, medicines and materials in his line that are a necessity to farmers. See him for prices, in the opera house block.

DON'T FAIL TO SEE THE MINNEAPOLIS STEEL BINDER BEFORE BUYING. FOR SALE BY A. GRAFF.

Will J. McKinley has severed his connection with the Caldwell Journal. He says he is not a "statesman out of a job," but a printer out of a job and he wants another.

New plate glass will take the place of the old board front in the opera house here and we hope it will have a more respectable appearance. We understand that the interior is to be nicely fixed up too.

I. G. Reed is still in the Sumner county jail, his lawyers being unable to secure the \$15,000 bond required to obtain his release from confinement. The people generally are well satisfied to have him stay right where he is.

The Uncle Tom's Cabin "water-proof" tent let so much water pour in upon the people of Oxford during the heavy rain Saturday night, that they went home looking like rats that had just crawled out of a sewer.

Prof. Crane, of the Conway Springs Normal College, was here last week and made the normal institute a visit. He will shortly commence the publication of an educational journal, which he will issue monthly in the interest of his college.

All of our farmers needing money should call on Black & Murrell. They are loaning at the lowest rates and will charge you no commission.

The Lawrence Poultry company of Argonia now runs a special freight car over the Missouri Pacific from F. Scott to Argonia, via Conway Springs, once a week and gather up poultry at the different towns along the line. They also run a car from Chetopa.

Oxford now sports twenty-seven safety wheels, but you can't ride one on the sidewalk in that town just the same. The authorities do not propose to have the wheels run over somebody every time they turn a corner.

The Salvation Army of Wellington will have an ice cream social in their hall on Monday evening, July 25. We will have with us Major Tully, of Kansas and Oklahoma division. Other surrounding officers are expected. All are welcome.

THE MINNEAPOLIS STEEL BINDER WILL RUN IN SOFTER GROUND. TIE MORE KNOTS AND CHOKE LESS THAN ANY OTHER BINDER ON THE MARKET. FOR SALE BY A. GRAFF.

George Bailey received serious injuries by a plunging horse which he was helping a veterinary surgeon to treat at Arnold's barn Friday evening. He was taken to his home in Green township Saturday evening, the doctors fearing that some of his ribs had been broken.

The Railway Employees of Kansas will hold a grand picnic at the park at Arkansas City, Saturday, July 23. Special trains will run and the rate from Wellington is only 50 cents. It is quite certain that the railway boys will take a day off. There will be good music and a great time.

Nec Era: The Wellington people are about to monopolize all the best fishing holes on the Chikaskia. All right, neighbors, come as often as you please and stay longer; we like sociability and if there isn't room for all, we'll have the banks terraced, so there will be; all we ask is not to be called on to cut bait.

When you have prescriptions to be filled or need drugs of any kind, A. G. Haltiwanger, under opera house, will make you the best prices. Call and see him.

The list of relief fund recipients has been ordered published by the city council. There was some objection to it being published by two or three members of the council, arguing that there were people who received aid that would much rather have suffered than to have their names published in this list, but the majority wisely decided that the list should be published. It was the understanding all along that this list would be published and it is right that it should be.

Milan Press: Our Alliance friends request us to announce that they have decided on Monday, August 1st, as the date for holding their picnic at this place. Judge Doster, one of the ablest advocates of the reform cause in the state, has promised to be present and address the people upon the issues involved in the present campaign, and the occasion will be enlivened by good music. So let all make their arrangements to attend. Come with baskets well filled, bring your families and come prepared to spend the day. A good time is anticipated.

The Oklahoma Pirates, a crack ball team from Oklahoma City, played the first game of the season here last Monday with the Wellington Cyclones, the Pirates winning the game by a score of 5 to 10. The second game between these teams was called Tuesday afternoon and although the Wellington boys played better ball than they did the day before, Oklahoma won the game again by a score of 10 to 4. The Oklahoma team has been traveling over the state, playing many of the best teams for three months past and are well practiced, while the Wellington boys have practiced very little and as the team was only organized two weeks ago, it was their first game this season. They need practice and should be well "pounded" before they match another game.

Subscribe for the Voice for the campaign, only 25 cents.

Warning: Prof. J. H. Ledgerwood's friends are hereby warned that to prefix the foregoing handle to his name is henceforth an error. It should, and must be "Dr." J. H. Ledgerwood, etc. Remember that it is now "Dr."

A. G. Haltiwanger is adding new goods to his drug stock. His store room has been repaired and refitted since the cyclone and he now has one of the best rooms in town.

The Cyclones played the merchants a game of ball Wednesday, the game resulting in a score of 17 to 12 in favor of the Cyclones. They had to play for it though. The bats will play the leans one day next week.

The Normal Institute social will be held on the court house lawn next Tuesday evening. It will be an exceedingly pleasant affair and no one should miss it. Ice cream will be served. Those connected with the normal are working to make it a great success and the people of Wellington should show their appreciation of their efforts.

We sell a Steel Range with twenty gallon tank, oven nineteen by twenty-two inches, six vessel holes and malleable top for \$45.00.—Curtis Hardware Company.

Owens & Sparr, the clothiers, have built up a splendid trade in the short time they have been in business here and they find that the room occupied by them is not large enough for their stock, hence they are having twenty-five feet added to the rear of their room, which they will shelve and table and get ready for a big stock of fall clothing and furnishing goods.

The only social of the season will be given next Tuesday evening. The following persons were appointed a committee to arrange a program for the occasion. Prof. Swaim, Misses Eva Hazard and Lee Burcham and O. H. Atterberry and Clarence Pile.

"Who wants a heart?" Such was the cry that came in ringing tones from one corner of the campus just after dismissal Monday. The curious are directed to Frank Forney for further information. Now Frank, if you are asked about it, tell the truth.

One more week and a little more will bring to a close as good a normal as the county has ever had. Though not as large as some previous ones, as much and as good work has been done as was ever accomplished by the same number of students and teachers in the same length of time.

Warning: Prof. J. H. Ledgerwood's friends are hereby warned that to prefix the foregoing handle to his name is henceforth an error. It should, and must be "Dr." J. H. Ledgerwood, etc. Remember that it is now "Dr."
